DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on February 7, 2007 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of US Patent 6,699,737 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 14-22 are allowed. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 14, prior art fails to teach bonding said plural salient electrodes to said plural leads respectively, wherein, in said wiring substrate provided in said step (b), the pitch of said plural salient electrodes is smaller than the pitch of said leads at the portions corresponding respectively to the plural salient electrodes, wherein said plural leads are fixed to said thin film base at their portions to be bonded to said salient electrodes. Claims 15-22 are dependent upon claim 14, and are therefore allowable.

Response to Arguments

Applicant's arguments see page 4, filed February 7th, 2007, with respect to claim 14 have been fully considered and are persuasive. The rejection of claims 14-22 in view of Mita et al has been withdrawn.
